HIBBERT TO RACE SIX SELECT SNOXCROSS EVENTS DURING 09/10 SEASON

Goodridge, Minn. (Nov. 17, 2009) - Tucker Hibbert is set to pilot his trademark, blacked-out Monster Energy/Arctic Cat Sno Pro 600 at six select snowcross events this winter. Hibbert will hit two exciting new venues on the AMSOIL Championship Snowcross Series (ACSS) tour in Milwaukee and Salt Lake City. He will return to New York, after a two-year absence, and will also be racing fan favorite events in Duluth and Shakopee, Minn. He already received his official invite to ESPN's Winter X Games 14, where he hopes to win a record-breaking ninth medal in the snowcross event with a gold medal four-peat.

Monster Energy is returning as the team's title sponsor and is committed to supporting Hibbert's racing year-round. As announced earlier, he is continuing his career-long partnership with Arctic Cat to race the third generation Sno Pro 600. Other returning sponsors are: Castle X Racewear, Stud Boy Traction, Fox Racing Shox, Spy Optic, Speedwerx, Kicker, One Helmets, Digital Ink Design & Graphics and Asterisk. Joining the team this winter is Leatt-Brace. Hibbert began wearing the Leatt neck brace the summer of 2008 and has not rode without it since. Leatt is the leader in neck protection and its highly praised brace was recently named "Product of the Decade" by Motocross Action magazine.

Last season, Hibbert rode flawlessly in every snowcross race he entered. He begins his quest for another undefeated season on Thanksgiving weekend at the ACSS tour's season opener in Duluth, Minn. If you cannot make it to a race this winter, watch the all-new, one-hour, Sunday afternoon race coverage of the ACSS tour on VERSUS. For Hibbert's complete schedule, check out www.tucker-hibbert.com.

Tucker Hibbert - #68 Monster Energy/Arctic Cat

"I'm really excited about my schedule this winter. I'll be racing at venues from one side of the country to the other, so fans from all over will have the opportunity to see a race in person.

Last year was unbelievable. Being undefeated puts a lot of pressure the crew and myself but we're prepared to do it again. I'm fortunate to have an amazing group of people behind my program. I just got home from a week of riding and testing and am confident my Monster Energy/Arctic Cat will be ready to rip at the season opener in Duluth!"

Noteworthy:

- Castle X Racewear dealers are now selling the fourth generation Monster Energy/Tucker Hibbert Replica Gear.
- Based on the successful Sno Pro race chassis, the all-new Sno Pro 500 is now available at Arctic Cat dealers.
